

July 20, 2006

**ATTENTION CITIZENS FOR GLEN ELLYN PRESERVATION –
NEED IMMEDIATE ACTION TO SAVE CHURCHILL!**

The Forest Preserve decided on Tuesday, July 18, 2006 to not consider hiring the firm Wight & Co. to perform an evaluation of what it would take to renovate the Churchill Property. This comes at a shock especially because Dewey Pierotti, Forest Preserve President for DuPage County, assured the Citizens for Glen Ellyn Preservation that the Forest Preserve Commissioners would evaluate this option. Since not one of the commissioners would make a motion to approve the estimate for the assessment of the property by Wight and Company, the original resolution to tear down the buildings stands.

We need to act NOW to save the historic Churchill Property from demolition. Please contact as many of the Forest Preserve Commissioners, Forest Preserve candidates, local state representatives, and the Press to request that the Forest Preserve reverse their decision to demolish and to pursue renovation instead.

For more information on Churchill, please go to the Citizens for Glen Ellyn Preservation web site where new materials are posted: <http://glenellynpreservation.org/>
